## Message From The Author

Hello. I'm Kevin Riley.

I have been an entrepreneur – building and running businesses since 1977. In 1994, I first started building websites and created my first commercial site in 1995.

Now, I run a number of online enterprises from my home in Osaka, Japan. The information product business allows me to travel with my lovely wife, Rieko, and run my business from anywhere in the world.

I started creating products in 1982. Then, I was creating physical products – board games, taper candles, wooden toy kits. It wasn't until the late 1990s that I realized that future profits lay in information products – books, audios, videos.

Now, I'm an entrepreneur who markets information – I'm an infopreneur. And, at [Product Creation Labs](#), I help others to make their own money-making info products and succeed on the Internet.

Mission Leader Kevin Riley

[Mission: Make Money Online](#)

## Make Money Today With This Guide

You can start making money this very minute by sending people to the sales letter, using your custom URL. Then, when somebody buys, 100% of the payment goes directly into your PayPal account.

Get an e-mail out to your friends and colleagues today ... or put a link on your blog right now – watch those deposits start rolling into your PayPal account.

Don't miss out on this easy way to put some quick money into your PayPal account. It only takes a minute:

**Step 1** – Replace "YourPayPal@EmailAddress.com" in the following URL with your own PayPal e-mail address:

<http://newbietoolkitdomain.com/?e=YourPayPal@EmailAddress.com>

**Step 2** – Send the link to your mailing list.

**Step 3** – Place the link on your blog or website

## Before You Start

To do business online – especially selling your own product or service – you need a website. And, nowadays there is no excuse for not having your own domain name. In fact, you need it to project an image of professionalism and build trust.

### Domain Name

This is your unique address on the Internet (e.g. google.com). It allows Internet browsers to find your website.

A domain name may be your company name, the name of your product, or a combination of popular keywords associated with your product.

**Keywords (n):** The words that Internet users type into a search engine when looking for certain information. e.g. "hair"

**Keyword phrase (n):** Two or more keywords entered together for a more targeted search. e.g "dye hair brown" DyeHairBrownNow.com

### To .com Or Not To .com

Since Internet users are accustomed to .com domain names – especially when they are looking for a product or company – it is a good idea to get a .com domain name for your business websites. If you are doing business in just a certain geographic area, you may want to get a local domain (e.g. .co.uk)

### Not All The Good Ones Are Taken

Yes, many short domain names are long gone, but you'll be surprised at the ones that are still available. Before you go to register a domain name, take a moment to brainstorm a list of good names. Then, if your choice is taken, you have more to try.

## Register Your First Domain

An easy place to register your domain name is Go Daddy. However, I recommend only registering there and hosting your website elsewhere.

Go to:

<http://newbietoolkitdomain.com/register>

On the right-hand side (under the login), click the “Create A New Account” link.

The screenshot displays the GoDaddy homepage with various promotional banners and navigation elements. At the top, there's a search bar for domains with a dropdown set to '.com' and a 'GO!' button. To the right, there's a 'Today's Offers' section with a 'SALE' banner and a '24/7 Sales & Support (480) 505-8877' link. Below the search bar, there's a 'Need help getting started?' section with a 'Try our Product Advisor first!' link. To the right of that, there's a 'GET .TV' section with a '\$19.99.TV SALE!' and a 'Channel your audience with a .TV domain!' link. Further right, there's a 'BobParsons.com' section with a 'Go Daddy's NASCAR gamble. Facts & figures behind the deal.' link. Below these, there's a navigation bar with links to 'Domains', 'Hosting & Servers', 'Site Builders', 'SSL Certificates', 'Business', 'Email', 'Domain Auctions', and 'Reseller Plans'. The main content area features a large banner for 'NEW DOMAINS' and '.COM TRANSFERS' with prices like '\$9.99\*/YR and LOWER' and '\$6.99\* FREE 1-YEAR EXTENSION'. To the right of the banner, there's a 'My Account' section with a 'Logout' link and a 'Create a New Account' link highlighted with a red arrow. Below the banner, there's a 'Domain Name Search' section with a search bar and a 'GO!' button. To the right of the search bar, there's a 'New to Go Daddy?' section with a 'Email Accounts & More' link. Below the search bar, there's a 'What's a Domain?' section with a list of domain extensions and their prices. To the right of the search bar, there's a 'FREE EXTRAS \$96 VALUE!' section. Below the search bar, there's a '#1 in Domain Registrations. Transfer your domains now!' section. At the bottom, there's a 'Help and Support' section with links to 'Frequently Asked Questions', 'Email Support', 'User's Guides', 'Telephone Support & Sales', 'Report Spam', and 'Test Our Products'. To the right of the help section, there's an 'About Go Daddy' section with links to 'Security Center', 'Company Info & Careers', 'View Our Commercials', 'News Center', 'Customer Testimonials', and 'What's New'. At the very bottom, there's a footer with '24/7 Sales and Support: (480) 505-8877', 'Billing Questions? Call (480) 505-8855', and a 'Free Email Updates! Enter address' link with a 'GO' button.

Next time, you'll just be able to log in and start registering your future domain names, but now you need to fill out this information to create your account.

Enter your full name (1) and a login name (2). Create a password (3) and enter it twice. Your password must be at least 5 characters long, but longer is better and use a random combination of numbers and letters.

Enter a short hint that will remind you of your password (4) and a 4-digit PIN code (5) – in case you ever have to call Customer Support.

Enter your mailing address (6) and telephone number (7).

The screenshot shows a web form titled "Enter Your Contact Information". It contains the following fields and callouts:

- 1** points to the "First Name" field (containing "Kevin").
- 2** points to the "Login Name" field (containing "KevinRiley").
- 3** points to the "Password" field (containing a masked password).
- 4** points to the "Password Hint" field (containing a masked hint).
- 5** points to the "Call-in PIN" field (containing a masked PIN).
- 6** points to the "Address 1" field (containing "Subaru Tennoji 501").
- 7** points to the "Work Phone" field (containing "81-6-7896-0683").

Other fields include "Middle Name", "Last Name" (containing "Riley"), "Confirm Password", "Organization", "Address 2", "City", "Province", "Zip/Postal Code", "Country" (a dropdown menu set to "Japan"), "Work Ext.", "Home Phone", "Mobile Phone", "Mobile Carrier" (a dropdown menu set to "Other"), and "Fax".

**Important:** Your address and telephone number must be correct, to avoid your registration being voided due to Internet regulations.

Select the type of account (8). As you will be using your websites for business, I recommend selecting “Business”.

Select your gender and birthdate (9).

Enter the e-mail where you want your domain information sent to (11), and select the style of e-mail you want to receive (12). I recommend “Plain Text”.

A screenshot of a registration form with several fields and options. Red callout boxes with numbers 8 through 12 point to specific elements: 8 points to the 'Business' radio button under 'Account Type'; 9 points to the 'Male' dropdown under 'Gender' and the 'February' and '6' dropdowns under 'Birthday'; 11 points to the 'Email' input field containing 'mail@kevinrileyinc.com'; and 12 points to the 'Plain Text' radio button under the email style selection. The form also includes fields for 'Mobile Phone', 'Mobile Carrier' (set to 'Other'), 'Fax', and a 'Confirm' email field. A note at the bottom states '\* INDICATES REQUIRED FIELDS'.

Mobile Phone:   
Mobile Carrier: Other   
Fax:   
Account Type: ☒ Business ☐ Personal ☐ Both  
Gender: Male   
Birthday: February  6   
Email: mail@kevinrileyinc.com  
Confirm: mail@kevinrileyinc.com  
HTML ☐ Plain Text ☒  
\* INDICATES REQUIRED FIELDS

Next, you can select the communications to receive from Go Daddy. To keep the amount of unnecessary e-mail to a minimum, select “No” for monthly updates (1).

Select “Yes” for non-promotional notices (2), to keep you informed of any changes that affect your domain name.

Select “No” for the next three options (3). And select the way you heard about Go Daddy (4) – most likely “Referred by someone ...”.

To avoid having your cell phone buzzing while watching your favourite movie, or having your mail slot stuffed with brochures, select “No” for contacting you via mobile or US Mail (5).

Then, click the large “Create A New Account” button (6).

The screenshot shows the 'Stay Informed!' section of a Go Daddy registration form. It contains several questions with radio button options. Red callout boxes with numbers 1 through 6 are placed next to specific options: 1 points to 'No' for monthly updates; 2 points to 'Yes' for non-promotional notices; 3 points to 'No' for three other options; 4 points to the 'Referred by someone/Friend' dropdown; 5 points to 'No' for mobile and US Mail contact; and 6 points to the 'CREATE A NEW ACCOUNT' button at the bottom.

**Stay Informed!**

Please select how you'd like us to contact you:

**Would you like to receive email from us on...**

1 Domain and other product related updates (sent once a month)?  
☐ Yes ☒ No

2 Non-promotional notices that deal with changes to your domain(s), account or other services?  
☒ Yes ☐ No

3 Notices for our Go Daddy Live podcast?  
☐ Yes ☒ No

3 Offers from us related to your purchase?  
☐ Yes ☒ No

3 Offers to help you run, manage and maintain your Business?  
☐ Yes ☒ No

**Tell us how you heard about us:**

4 Referred by someone/Friend

**May we also contact you via...**

5 Text messaging of product information or special offers on your mobile phone?  
☐ Yes ☒ No

5 U.S. Mail with your Welcome Kit, service renewal notice, catalogs and other offers?  
☐ Yes ☒ No

**NOTE:**

- We will never - under any circumstance - rent, sell, exchange or in any way make your information available to third parties, unless legally required to do so.
- ICANN does require that you receive one email per year to verify and update your contact information.

**CREATE A NEW ACCOUNT**

6

Now, you're logged in and can see which domain names are available. Start with your number one choice.

Enter your desired domain name (1) and the .com (or other) suffix (2). Then click “Go” to start a search for this domain name.

The screenshot shows the GoDaddy.com homepage. At the top, there's a navigation bar with links like 'Start a domain search:', 'Today's Offers', and '24/7 Sales & Support: (480)505-8877'. Below this is a banner with various promotions, including a '\$19.99.TV SALE!' and a 'BobParsons.com' advertisement. A green navigation bar lists services: Domains, Hosting & Servers, Site Builders, SSL Certificates, Business, Email, Domain Auctions, and Reseller Plans. The main content area features a large advertisement for Dale Earnhardt Jr. with domain prices: '\$9.99\*/YR and LOWER' for new domains and '\$6.99\*' for .COM TRANSFERS. Below the advertisement is a 'Domain Name Search:' section. It includes a text input field with 'recipeforfreebie', a dropdown menu with '.com', and a 'GO!' button. Red numbers 1, 2, and 3 are overlaid on these elements respectively. To the right of the search bar is a 'New to Go Daddy?' section with a 'Get exactly what you need' button. On the far right, there's a sidebar with user account links: 'My Account', 'Logout', 'Welcome back to GoDaddy.com!', 'My Account', 'Log out', 'Assign an AccountExec!', 'My Renewals', 'My Cart Currency', 'My Go Daddy Deals', and 'My Email Account'.

Within seconds, you'll have your answer. Either a green check mark or a red cross out.

**Not Available:** Enter another domain name choice in the search window (1).

**Available:** Click the large “Proceed To Checkout” button (2).

**Checkout Now**

**Note:** You can use any easy-to-remember name for this PayPal account. Just something short, like “fred” or “skipper”, will do.

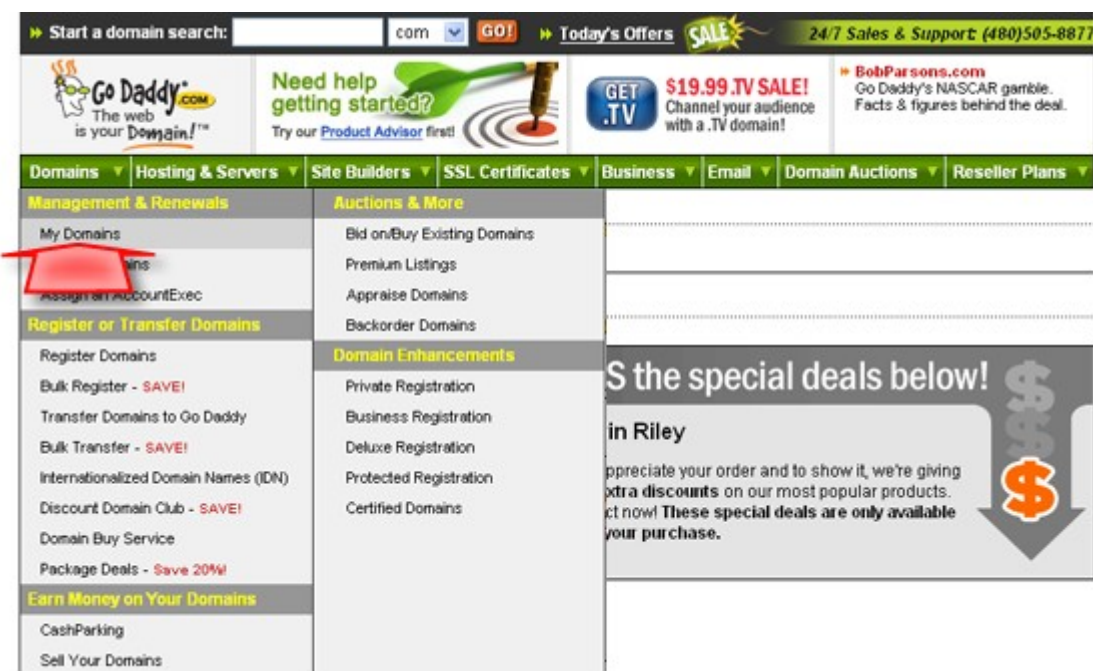

Now, you can print out the receipt (1). After all, this is an eligible business expense.

Mouse over (do not click) “Domains” in the menu bar (2).

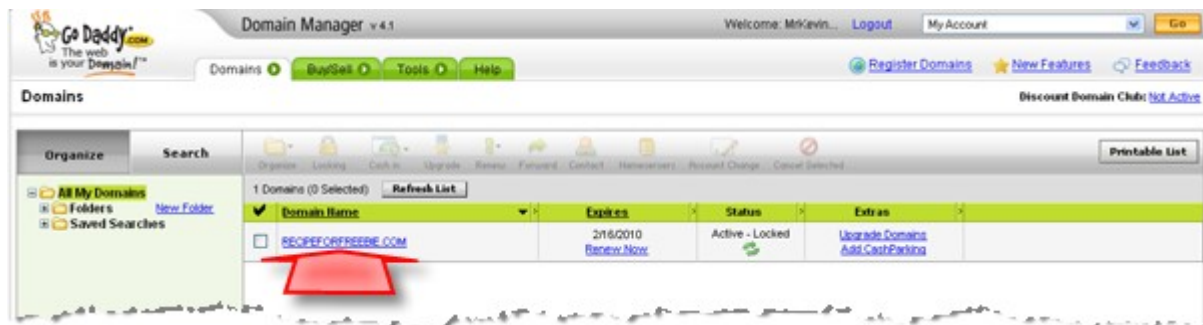

A drop-down menu appears. Click on “My Domains”.

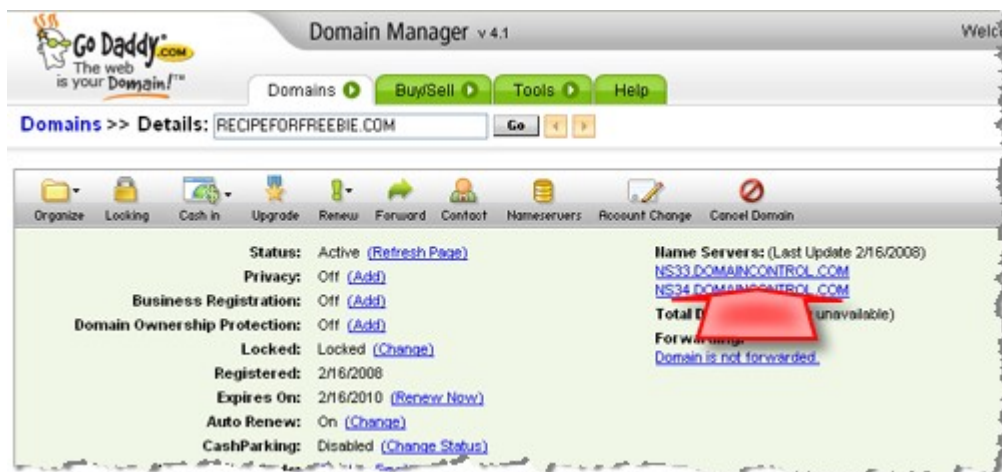

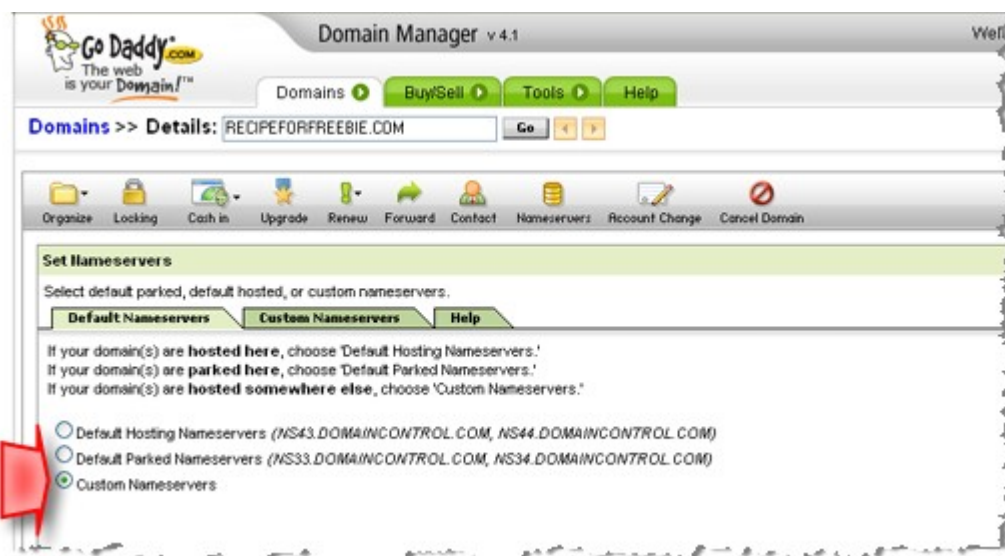

In your Domain Manager, click on your new domain name.

Click on the set of name server links.

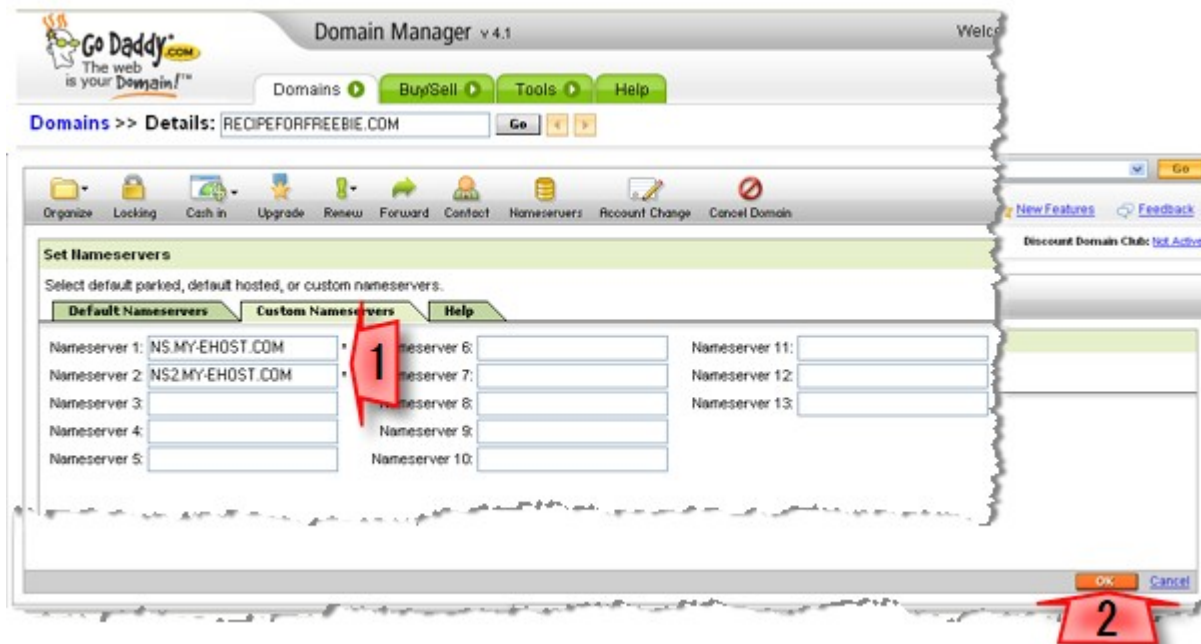

Select "Custom Nameservers".

Enter the following name server information into the boxes labeled “Nameserver 1” and “Nameserver 2” (1):

NS.MY-EHOST.COM  
NS2.MY-EHOST.COM

Click “OK” (2).

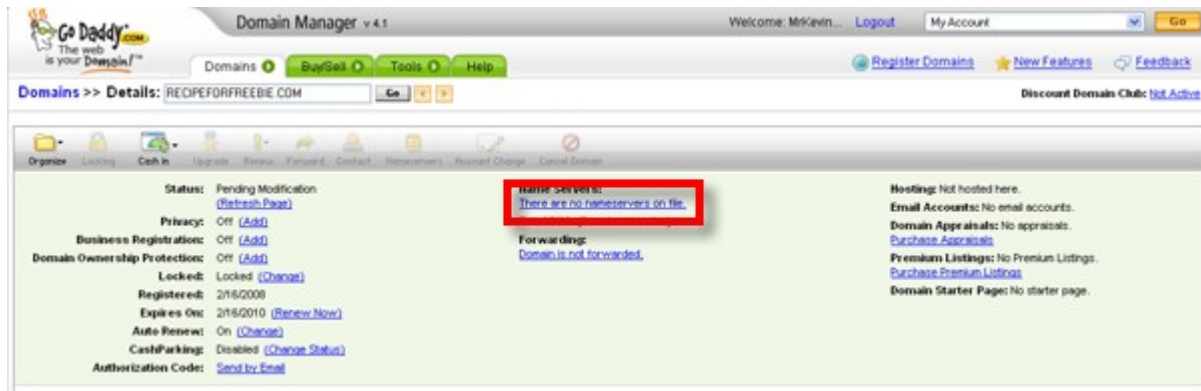

**Name Server (n):** The information that links your domain name to the hosting company you're using. In this case, these name servers point to Host4Profit – where you'll set up your hosting.

Your name server change is processing (1). Click “OK” (2).

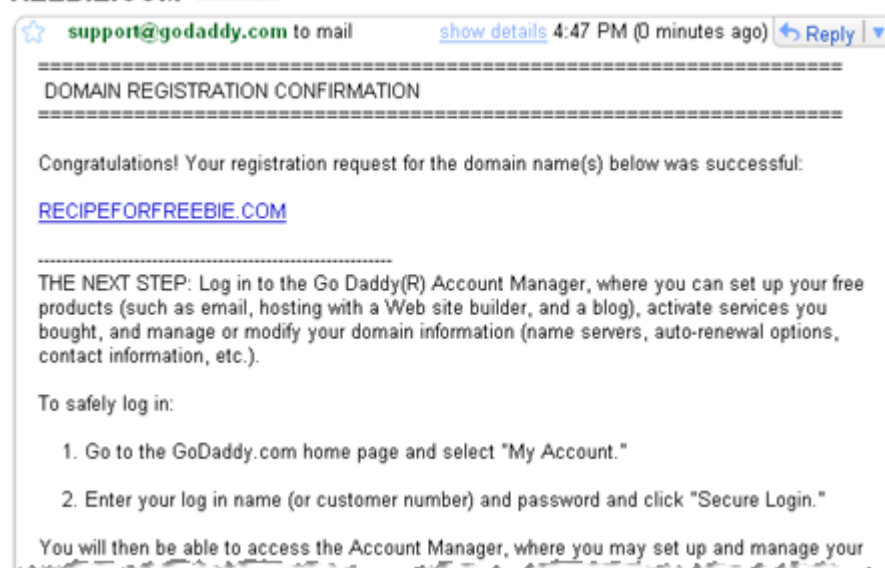

Go Daddy will temporarily show “There are no nameservers on file”, but this is just because they are being changed over. You can now log out, or simply close the browser window.

You'll receive e-mail from Go Daddy – giving you steps for setting up. Since you're setting up your hosting at Host4Profit, you can ignore this message. Simply keep it on file.

#### SPAM-LOW: Information regarding the registration of RECIPEFORFREEBIE.COM

## Set Up Your Hosting

A hosting service provides a place on the Internet for your website. It gives you space on a server computer and makes your website accessible to any computer attached to the Internet.

**Server (n):** A computer on the Internet that holds the files that make up your website, and serves them to web browsers as web pages.

By placing your website on a server with a hosting company, you make your website available 24 hours a day, seven days a week. To ensure that your website is always accessible – or open for business – you want a reliable hosting service.

I highly recommend Host4Profit for hosting your website. They have great support and they stand behind your business.

Go to:

<http://newbietoolkitdomain.com/hosting>

In the left-hand menu, click the “Order Today” link.

Enter the domain name you registered at Go Daddy (1) and select “No – I will handle ...” from the drop-down menu (2).

Enter your full name (3), address (4), main e-mail address (5), and your phone number (6).

**First: See If Your Domain Name Is Available.**  
If it is - Fill Out The Form Below So We Can Get You Set Up  
www.  .com

**Note:** We Will Register Your New Domain Name For You - \$15 For One Year. If Your Domain Is Already Registered See The Bottom Of This Form. We Have **No** Setup Fees. Billing Will Start The Day You Are Setup And Will Be Billed That Same Day Each Month After - **\$24.95 Per Month.**

## Host4Profit.com Order Form

Protected by The Safest Encryption Techniques

**Order Code: 87358**

Enter the FULL domain name below, including extension (.com, .net, .org or other valid extension). The http://www. part of the domain name is not needed.

Your Domain Name:  **1**

Register Domain Name:  **2**

\*Please let us know if this domain is a new one or will be transferred over to us. The \$15.00 domain name registration fee is non-refundable and is good for a year.

First Name:  **3**

Last Name:  **3**

Company Name:

Address:  **4**

City:  **4**

State:  **4**

State (if not listed above):  **4**

Zip/Postal Code:  **4**

Country:  **4**

Email Address:  **5**

\*Avoid using free email addresses

Phone Number:  **6**

Fax Number:

**Important:** Host4Profit will be sending you important login details for your website, so be sure to use your best e-mail address.

Next, select the type of credit card you'll be paying your monthly hosting fee with (7) and all your card information (8).

Check the four boxes to show your acceptance of Host4Profit's terms and billing arrangement (9).

Then, click "Submit My Order" (10).

The screenshot shows a payment form for Host4Profit. At the top, there are two credit card icons. The form fields are as follows:

- Select Credit Card:** A dropdown menu with "Visa" selected. A red arrow labeled "7" points to this field.
- Name on Card:** A text box containing "Kevin Riley".
- Credit Card#:** A text box with a blacked-out card number.
- Expiration Date:** A text box with a blacked-out date and the text "(MM/YY format)".
- Card Code (CVV2):** A text box with a blacked-out code and the text "(3 or 4 digit code on back of card)". A red arrow labeled "8" points to this field.
- Billing Address:** A text box with a blacked-out address.
- Billing Zip Code:** A text box with a blacked-out zip code.

Below the form fields, there are four terms and conditions, each preceded by a checked checkbox. A red arrow labeled "9" points to the first checkbox:

- ☒ I Agree To The Terms Of Service. [Click Here](#) For Full Details.
- ☒ I Agree Not Send Spam Via Host4Profit's Servers Or Using A Domain Name Hosted On Host4Profit's Servers. [Click Here](#) For Full Details.
- ☒ I Agree Not To Join "Safe To Email Lists". Example Lists Run By Companies Such As Egroups, eLists and GlobeLists. (Because Of The Thousands Of Emails That These Lists Bring In, They Consume Too Many Server Resources And Are Rarely Read By The Receptient, We Must Enforce This Restriction)
- ☒ I Agree That My Credit Card Will Be Charged \$24.95 On Setup And On That Same Day Each Month After By **HASBROUCK ENTERPRISES, INC / HOST4PROFIT.COM.**

Below the terms, there is a **NOTE:** Your IP Address and Remote Host Information is being stored when this form is submitted. This is to help fight fraud on the Internet.

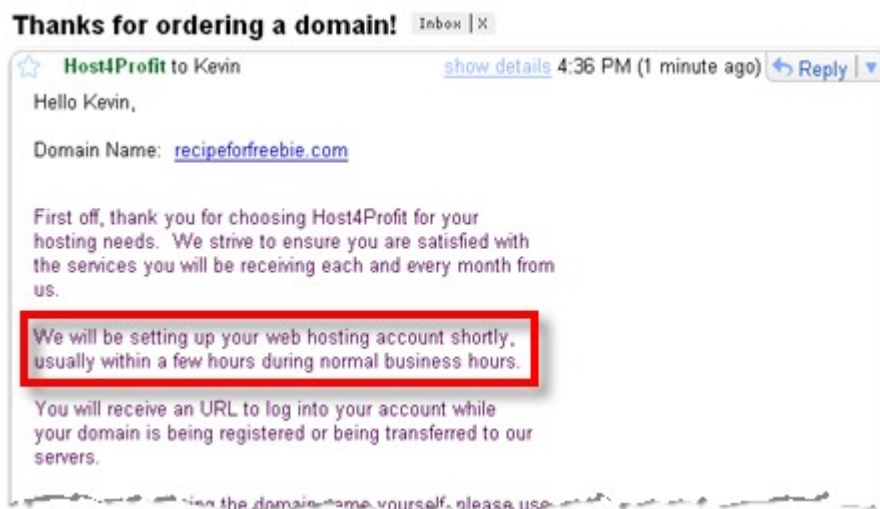

Below the note, the IP Address is displayed: **IP Address: 211.124.86.195**

At the bottom, there is a button labeled "Submit My Order". A red arrow labeled "10" points to this button.

You'll soon receive a notice from Host4Profit, letting you know that they are setting up your hosting service. Depending upon when you submit your order, it can take anywhere from a few hours to a day before your account is set up.

Now is a good time to start creating your web pages. You can get started with [“The Newbie Toolkit: How To Build And Upload Your First Website”](#).
